

# Daffodil International University

Faculty of Engineering

Department of Information and Communication Engineering

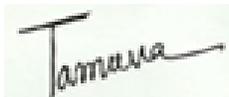

## Notice

As you approach the final stages of your academic journey, we would like to remind you of an important requirement regarding your thesis/project/internship supervisor selection. All students of the **Spring 2021** and **Fall 2019** batch are requested to submit their Thesis/Project/Internship Supervisor Selection Form to the department no later than **16/05/2023**.

It is crucial that you submit the form within this timeframe.

- **Submission Deadline:** The deadline for submitting the Supervisor Selection Form is **16/05/2023**. Failure to submit the form by this date will result in the decision of the Defense Committee being considered final. In such cases, the Defense Committee will assign a supervisor to you based on availability and suitability.
- It is essential to follow the assigned supervisor; selecting supervisors of your own choice is not permitted.

Additionally, all students are required to collect a hard copy of the Supervisor Selection Form with the name of the assigned supervisor given by the Defense Committee. This copy must be collected from the department office by **18/05/2023**. The copy will serve as a confirmation of your selected supervisor and will be important for record-keeping purposes.
