Pre-Defense and Final Defense Schedule for ICE/ETE Department Students

I hope this message finds you well and in good academic spirits. We would like to inform you about an important change regarding the defense schedule for the upcoming date (28th August 2023).

It has come to our attention that a number of students from the ICE/ETE Department have not yet completed their pre-defense presentations. In light of this, the defense committee have decided to make a necessary adjustment to ensure that all students are given a fair opportunity to successfully complete their defenses. Here are the key instructions and points to note:

1. Your pre-defense presentation will take place on 28th August 2023. This is your last opportunity this semester to complete the pre-defense stage.
2. Attendance at the pre-defense is mandatory. Without completing the pre-defense, you will not be eligible to participate in the final defense.
3. Adequately prepare your pre-defense presentation. Rehearse your content, address potential questions, and ensure your presentation is well-structured.
4. If you have any questions or need guidance on your pre-defense presentation, feel free to reach out to your defense supervisor.
5. The final defense is scheduled to take place from 16th September 2023 to 21st September 2023. Ensure you keep these dates available in your schedule.
6. Ensure you have all necessary documentation, including your research materials, presentation slides, and any required forms for both the pre-defense and final defense.
